About me

I am a UX/UI Designer, focused on clarity, accessibility, and delightful interactions. I bridge research and visuals into products that work, aiming to create impactful designs that leave a lasting impression.

Work Experience

● Part-time UX Designer

Mediacooks B.V.

Sep 2025 – currently
Eindhoven, The Netherlands

● UX Designer Internship

Mediacooks B.V.

Sep 2024 – Jan 2025
Eindhoven, The Netherlands

Projects

● Vince website redesign

Redesigned Vince People's website (healthcare staffing platform used by 7 orgs/~300 users) to clarify value, streamline navigation, and reduce cognitive load for institutions and self-employed professionals.

● DeciPal

As a solution to raising awareness to the danger of high sounds, I alongside my teammate, created a gamified app that intuitively detect decibel levels and offers recommendations based on the ambient noise. It is centralised around a tamagotchi avatar, the user needs to take care of it

Education

● Fontys University of Applied Sciences

ICT and Media Design

2022-present
Eindhoven, The Netherlands

● 35th school for foreign languages

"Dobri Voynikov"

2017-2022
Sofia, Bulgaria
